wedding idea project sheet

Blooming Wedding Favor Boxes

What You'll Need:

- One-Piece Wedding Favor Boxes
- Ribbon (in your choice of colors)
- Faux Flowers (your choice)
- Candy/Mints/Nuts
- Double-Sided Tape
- Scissors

Easy Step-By-Step Directions:

1. Remove the flattened boxes from the packaging and unfold and shape them to put together.
2. Using the scissors, cut your ribbon into 9¼"-long strips. Wrap the ribbon around the middle of the box and secure it in the back with double-sided tape. Be sure to position the tape so it's hidden by the ribbon for a professional-looking finish.
3. Fill the favor boxes with your choice of candy, mints, or nuts and push the lid down to close the boxes.
4. Cut the blooms off your floral bushes, leaving about 2" stems (we are using our Gerbera Daisies).
5. Push the floral stems down through the center of your favor boxes (there is a small opening left when the box is completely put together) until they pop into place.
6. Place a favor box at each place setting, or display the boxes in a basket, on a favor table, or on decorative trays (we are showing ours above on our nickel-plated trays).

your wedding should be special... *not expensive!*
