

Cupcake Stand

What You'll Need:

- Two Clear Glass Dinner Plates
- One Clear Glass Bowl
- Three Glass Taper Candleholders
- Black Nontoxic Paint
- Glass Glue

Finishing Touches:

- Halloween Baking Cups
- Cake Mix & Icing
- Halloween Lantern
- Halloween Figurine with Dangling Legs

Easy Step-by-Step Directions:

1. Paint only the backs of the 2 glass plates and the glass bowl and set aside to dry. Don't paint the surfaces (tops of plates, inside of bowl) that will touch food. Be sure to use a nontoxic paint and remember that the finished cupcake stand should be cleaned only by handwashing or wiping down with a damp cloth (do not put in the dishwasher).
2. Paint the 3 glass candleholders and set aside to dry.
3. Once all the painted pieces are dry, attach them together as shown with glass glue (candleholder, plate, candleholder, plate, candleholder, bowl). Let everything dry overnight.
4. Using cake mix, icing, and Halloween baking cups from Dollar Tree, make some fun & festive cupcakes to serve on your new cupcake stand. Place a cute Dollar Tree Halloween figurine with dangling legs on the edge of one plate for a whimsical touch. We topped our stand off with one of our paper lanterns, but you could also fill the bowl with wrapped candy for an extra sweet treat!

More Fun Ideas...

Using nontoxic paint in other colors, add some accents to the candleholders... or use colors other than black to modify the idea for Christmas, birthdays, weddings, or baby showers!
