

Googly Eye Frame or Mummified Candles

What You'll Need to Create a Googly Eye Frame

- Picture Frame
(select a frame with a flat border, at least 1" wide)
- Googly Eyes
- Super Glue

Easy Step-by-Step Directions:

1. Take the glass out of the picture frame.
2. Starting in one corner of the frame, use the Super Glue to stick the Googly Eyes to the frame.
3. Work your way around the frame until it is completely covered. Be sure to alternate sizes of the Googly Eyes.
4. Let dry as instructed by the Super Glue.
5. Once dry, put the glass back in the frame with your favorite Halloween picture or a "Happy Halloween" message.

What You'll Need to Create Mummified Candles

- LED Tealights
- Candleholders
(varying sizes — we used one 4" and one 7½")
- Rolled Gauze
- Googly Eyes
- Glue
- Scissors

Easy Step-by-Step Directions:

1. Use scissors to divide the gauze proportionately for your candleholders.
2. Glue the end of the gauze to your first candleholder.
3. Wrap the gauze around the candle holder, ensuring that all areas are covered.
4. Glue the loose end of the gauze to secure it to the candleholder.
5. Glue two Googly Eyes onto the gauze-covered candleholder.
6. Place one LED tealight in the candleholder.
7. Repeat with the second candleholder.
